

# ***Growin'***

**Words and Music by Gary Fry from the *CD Home - Volume I*  
Featuring Amy Fry and Sara Fry**

Verse #1: Like a tree  
Stretching up its leaves  
Spreading toward the sun up in the sky

Like a flower  
In the springtime rain  
Brighter and more beautiful as the days go by

**CHORUS: Growin', growin', growin' a little bit everyday  
In lots of different ways I'm getting stronger**

**Growin', growin', growin' building a better me  
For all the world to see, I'm growin'**

Verse #2: Like a bird  
Trying out its wings  
Finding for the first time it can fly

That's like me  
Learning lots of things  
Don't know how much I can do 'til I give it a try

**CHORUS: Growin', growin', growin' a little bit everyday  
In lots of different ways I'm getting stronger**

**Growin', growin', growin' building a better me  
For all the world to see, I'm growin'  
Growin', growin', growin'**

Bridge:           Everyday I can do something else  
                      I couldn't do before  
                      Going step by step by step  
                      That's the way to keep doing more

                      If you feed me opportunity  
                      And water me with love, then  
                      Stand back! Look out!  
                      Here I grow again! (Here I grow again!)

Verse #3:        Music Only

**CHORUS:   Growin', growin', growin' a little bit everyday  
              In lots of different ways I'm getting stronger**

**Growin', growin', growin' building a better me  
For all the world to see,**

**I'm growin' (growin')  
          Growin' (growin')  
          Growin' (growin', growin')**

**Growin' (growin')  
Growin' (growin')  
Growin'**
